

WIRELESS CAPSULES

Product Specification

Simple and fast, let you have different sound quality

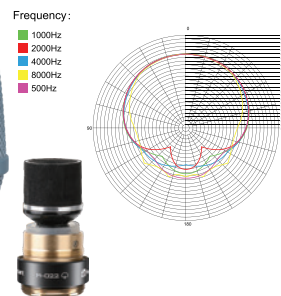

In order to meet the needs of our customers for performance products, each series of performance wireless microphones can have multiple replaceable microphone modules. Each module has different professional timbres and can be matched with different speakers to present sound effects. The microphone module can be replaced quickly, which is convenient for customers to replace microphones with all kinds of sound quality, and makes the maintenance of products easier and faster.

Frequency Response

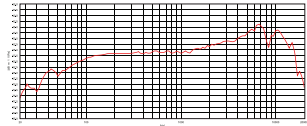

M-D22
Dynamic Microphone Module

Polar Pattern

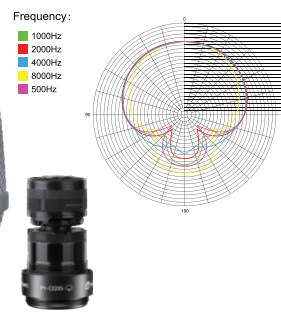

Connectivity:	Relacart UR series wireless microphone body Shure® wireless microphone body
Type:	Dynamic
Directivity:	Super cardioid
Frequency:	120-16000Hz
Response:	
Flexibility:	-53dB re 1V/Pa
Max SPL:	145dB@ 1%
Dimension(mm):	53×79
Weight:	85g

Frequency Response

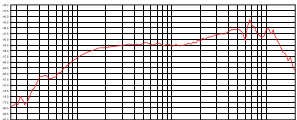

M-D26
Dynamic Microphone Module

Polar Pattern

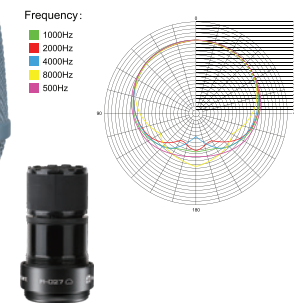

Connectivity:	Relacart UR series wireless microphone body Shure® wireless microphone body
Type:	Dynamic
Directivity:	Super cardioid
Frequency	100-18000Hz
Response:	
Flexibility:	-56dB re 1V/Pa
Max SPL:	125dB@ 1%
Dimension(mm):	53×79
Weight:	105g

Frequency Response

M-D27
Dynamic Microphone Module

Polar Pattern

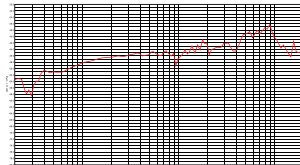

Connectivity:	Relacart UR series wireless microphone body Shure® wireless microphone body
Type:	Dynamic
Directivity:	Cardioid
Frequency	120-16000Hz
Response:	
Flexibility:	-53dB re 1V/Pa
Max SPL:	145dB@ 1%
Dimension(mm):	53×79
Weight:	95g

WIRELESS CAPSULES

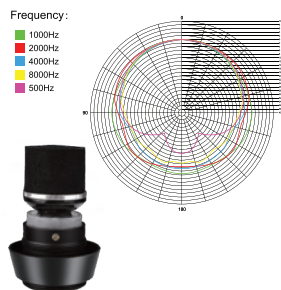

Product Specification

Frequency Response

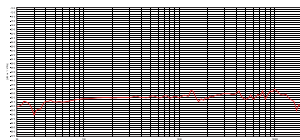

M-D30
Dynamic Microphone Module

Polar Pattern

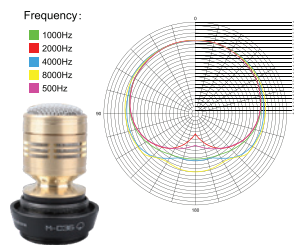

Connectivity:	Relacart HR series wireless microphone body
Type:	Dynamic
Directivity:	Cardioid
Frequency	100-18000Hz
Response:	
Flexibility:	-47dB re 1V/Pa
Max SPL:	145dB@ 1%
Dimension(mm):	53×79
Weight:	115g

Frequency Response

M-C36
Condenser Microphone Module

Polar Pattern

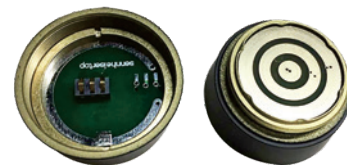

Connectivity:	Relacart UR series wireless microphone body Shure® wireless microphone body
Type:	Condenser
Directivity:	Cardioid
Frequency	100-18000Hz
Response:	
Flexibility:	-52dB re 1V/Pa
Max SPL:	145dB@ 1%
Dimension(mm):	51×74
Weight:	145g

Product size (mm):	41 (D)×14.5 (H)
Weight (g):	55

RC-SHSE

Handheld Microphone Adapter
(Shure Head to Sennheiser Handheld)

Product size (mm):	41 (D)×14.5 (H)
Weight (g):	55

RC-SESH

Handheld Microphone Adapter
(Sennheiser Head to Shure Handheld)
