

DC-903

| Data Communication Converter

Description

DC-903 is a data communication converter for the WDC serie wireless conference system. With mature and stable wireless communication protocol loRa, it has the advantages of high stability, high performance, high security, low latency and low power consumption

Product Specification

Working Frequency Range:	400~450MHz
Gain:	16dBm
RF Input Port:	N female
Data Communication Port:	RJ45 connector
Power Supply:	Powered by the controller through the CAT5 cable
Material:	Black anodized aluminum(package)
Dimension(mm):	42(W)×42(D)×105(H)
Weight:	150g
