

# TM-5H

## Pen-type Microphone

### Description

TM-5H handheld microphone is novel in appearance and small in size. Its circuit adopts advanced phase-locked technology, with built-in removable lithium battery, USB-TYPE-C charging interface and laser pen. Low power consumption, continuous working time of one charge  $\geq 8$  hours. It can be equipped with a wireless charging station certified by Qi, and can also realize wireless charging.

### Product Specification

RF Carrier Range:	521.25MHz~938.85MHz
Frequency Stability:	$\pm 0.005\%$
Operating Range (environment dependent):	50m
Companding:	Relacart's classic audio companding circuit
Audio Frequency Response:	50Hz~18KHz/ $\pm 3$ dB
Dynamic Range:	>100dB
S/N Ratio(A-Weighted):	>100dB
Total Harmonic Distortion:	<0.6%@1KHz
